WHY ALOSCA DRY LEGUME INOCULANTS?

- ✓ Can be dry sown.
- ✓ Can be used with seed dressings that are typically harmful to inoculants.
- ✓ Convenient application.
 - Can be blended with fertilisers, seeds or in a third box for ease of application.
- ✓ Can be stored for months as long as it is in a dry place.
- ✓ No need to mess around with slurries.

SUMMER SOWING SPECIAL \$100 PER TON CASH BACK

Summer or early sowing of annual pasture legumes species is gaining momentum. To assist with the development of these new establishment methods, which are delivering significant forage production and nitrogen fixing benefits over normal winter sowing, ALOSCA Technologies is offering significant discounts on our granular range of pasture and cropping legume inoculants. See reverse side for details.
